

Board Liaison and Chairs Meeting November 1, 2023

Power point presentation provided information in an effort to build and expand low barrier harm reduction and safer supply services in our organization or our community. The power point presentation provides some background information along with myth busting information. There is a community centre in London Ontario which has implemented the Safe supply aspect of the harm reduction strategy. An Alliance member involved in this process has reach out and will provide some insight and support if we consider this a reasonable option or strategy for our community.
